Model: HPCS-14

1.25 HEAT PUMP

115V/1PH @ 15 Amps

The HPCS-14 Portable Heat Pump delivers reliable year-round climate control with 13,200 BTU of cooling capacity and 14,520 BTU of heating capacity, making it an excellent solution for spaces that require both temporary cooling and supplemental heat. This versatile, self-contained unit is ideal for small offices, break rooms, hospital patient rooms, classrooms, server rooms, and other indoor environments where maintaining a comfortable temperature is essential. Designed for quick and convenient deployment, the HPCS-14 can be set up and providing conditioned air within minutes without the need for costly or permanent installation. Operating on standard 115V power at just 15 amps, the unit can be connected to a typical electrical outlet for added convenience and flexibility.

Features:

- Digitally Controlled Thermostat
- Built in Condensate Tank
- Two Speed Fan
