Model: PCS-18

1.5 TON A/C

115/1PH @ 20 Amps

The PCS-18 Portable Spot Cooler is a self-contained cooling solution designed for fast deployment and dependable performance. Ready to operate in just minutes, it delivers 16,800 BTU of cooling without the need for costly or permanent installation. Ideal for temporary or supplemental cooling, the PCS-18 is well suited for small offices, data centers, classrooms, healthcare facilities, patient rooms, and other indoor environments. Any space with access to a ceiling plenum or ceiling tile for warm air exhaust provides an optimal installation. Operating on standard 115V power at just 20 amps, the PCS-18 can be plugged into a typical electrical outlet, making it a convenient, portable solution for emergency cooling, planned maintenance, or supplemental climate control.

Features:

- Built in Condensate Tank
- Powerful 16,800 BTU
