(Cooling)

Model: PCS-63

5 TON A/C

460/3PH @ 12 Amps

The OP-63 Portable Spot Cooler delivers an impressive 60,000 BTU of cooling capacity, providing a powerful and dependable solution for larger commercial and industrial spaces where temperature control is critical. Taking up less than 12 sq. ft. of floor space, this self-contained portable unit is ideal for large office areas, data centers, server rooms, equipment rooms, and other environments where excessive heat can impact employee comfort or sensitive electronics. Designed for quick deployment, the OP-63 can be set up and cooling within minutes without the need for costly or permanent installation. A built-in condensate pump automatically removes collected water to a designated drain, eliminating the need to manually empty condensate tanks.

Features:

- Built in Condensate Pump
- Powerful 71,000 BTU
- Auto Restart after Power Interruption
- Temperature Control Thermostat
- Easily Portable
